

Sabre-toothed tiger trail

Description

Are you joining this adventurous trip along the trail of the Sabre-toothed tiger?

In the fairy-tale-like forest of the Hunzebos you can find the trail of the Sabre-toothed tiger, a playful hike of about 2 kilometers for fearless kids. The trail winds through the forest and over the ice-age hills. Youâ??ll climb, swing on ropes, balance on rickety bridges, swoosh downhill on a cable runway and much more.

Along the way you can play exciting games using the app and test your speed and skills against that of the Sabre-toothed tiger. And youâ??ll learn about the impressive Mammoth that once lived here.

One of the challenges along the trail

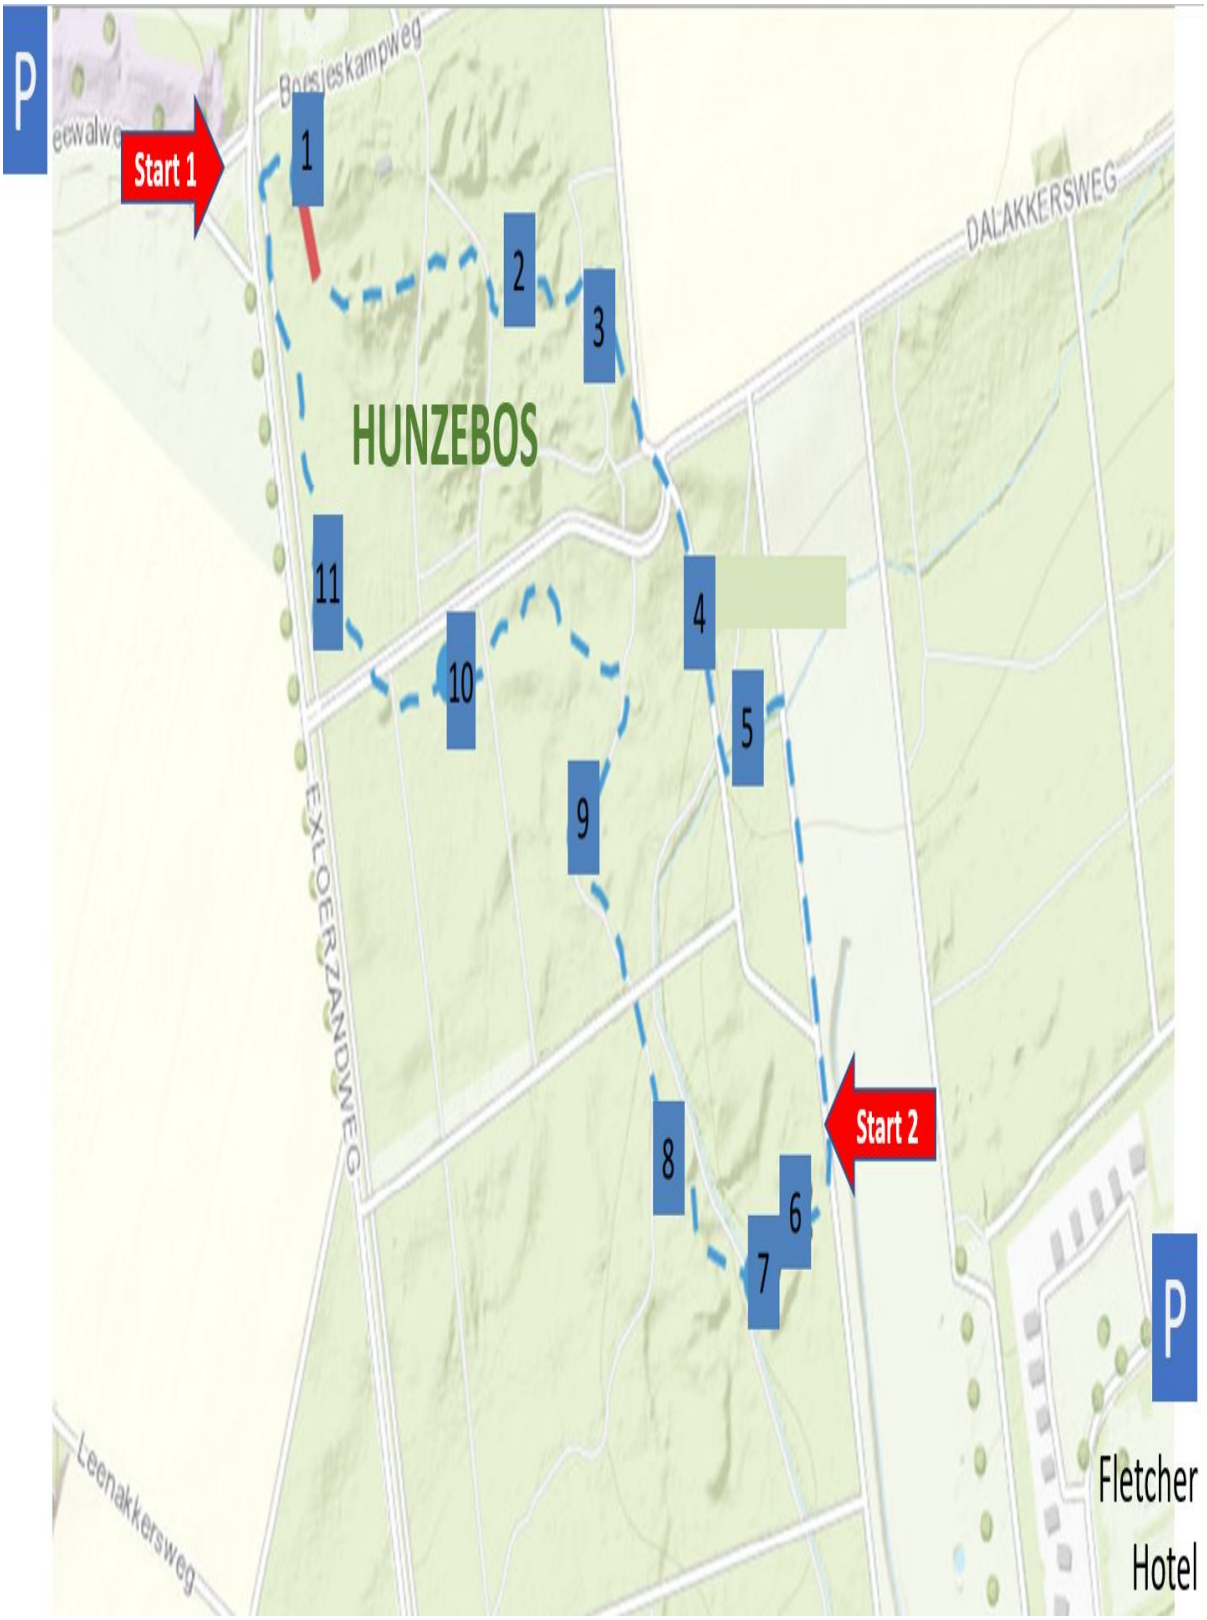

Experience even more using the app!

Do you want to play the app?
